BM Sürdürülebilir Kalkınma Amaçları

AMAÇ 1: YOKSULLUĞA SON

Yoksulluğun her biçiminin ortadan kaldırılması günümüzde insanlığın karşı karşıya olduğu en büyük sorun olmaya devam ediyor. Aşırı yoksulluk içinde yaşayan insanların sayısı 1990 ile 2015 arasında 1,9 milyardan 836 milyona düşmek suretiyle, yarıdan fazla azalmış olsa da, hala çok sayıda insan en temel insani gereksinimlerini karşılama savaşı vermektedir.

Günümüzde dünya genelinde 800 milyondan fazla insan günde 1,25 ABD dolarından daha az gelire geçinmeye çalışıyor; birçoğunun yeterli gıda, temiz içme suyu ve sıhhi koşullara erişimi bulunmuyor. Çin ve Hindistan gibi ülkelerdeki hızlı ekonomik büyüme, milyonlarca insanı yoksulluktan kurtarmıştır, ancak ilerleme dengesiz olmuştur. Kadınların yoksulluk içinde olması; ücretli işler, eğitim ve mülkiyete erişim eşitsizliği nedeniyle, erkeklere göre daha olasıdır.

Öte yandan, aşırı yoksulluk içinde olanların %80'inin yaşadığı Güney Asya ve Sahraaltı Afrika gibi diğer bölgelerde de ilerleme sınırlı olmuştur. İklim değişikliği, çatışmalar ve gıda güvensizliğinin getirdiği yeni tehditler, insanları yoksulluktan kurtarmamız için çok daha fazla çalışmamız gerektiğine işaret ediyor.

Sürdürülebilir Kalkınma Amaçları, başlamış olduğumuz şeyi bitirme ve yoksulluğun her biçimi ve boyutunu ortadan kaldırma yönünde oldukça cesur bir taahhüttür. En korunmasız durumda olanların hedeflenmesi, temel kaynaklar ve hizmetlere erişimin artırılması ve çatışmalar ile iklim temelli afetlerden etkilenen toplumların desteklenmesini içerir.

BM Sürdürülebilir Kalkınma Amaçları

AMAÇ 1: YOKSULLUĞA SON

Yoksulluğun her biçiminin ortadan kaldırılması günümüzde insanlığın karşı karşıya olduğu en büyük sorun olmaya devam ediyor. Aşırı yoksulluk içinde yaşayan insanların sayısı 1990 ile 2015 arasında 1,9 milyardan 836 milyona düşmek suretiyle, yarıdan fazla azalmış olsa da, hala çok sayıda insan en temel insani gereksinimlerini karşılama savaşı vermektedir.

Günümüzde dünya genelinde 800 milyondan fazla insan günde 1,25 ABD dolarından daha az gelire geçinmeye çalışıyor; birçoğunun yeterli gıda, temiz içme suyu ve sıhhi koşullara erişimi bulunmuyor. Çin ve Hindistan gibi ülkelerdeki hızlı ekonomik büyüme, milyonlarca insanı yoksulluktan kurtarmıştır, ancak ilerleme dengesiz olmuştur. Kadınların yoksulluk içinde olması; ücretli işler, eğitim ve mülkiyete erişim eşitsizliği nedeniyle, erkeklere göre daha olasıdır.

Öte yandan, aşırı yoksulluk içinde olanların %80'inin yaşadığı Güney Asya ve Sahraaltı Afrika gibi diğer bölgelerde de ilerleme sınırlı olmuştur. İklim değişikliği, çatışmalar ve gıda güvensizliğinin getirdiği yeni tehditler, insanları yoksulluktan kurtarmamız için çok daha fazla çalışmamız gerektiğine işaret ediyor.

Sürdürülebilir Kalkınma Amaçları, başlamış olduğumuz şeyi bitirme ve yoksulluğun her biçimi ve boyutunu ortadan kaldırma yönünde oldukça cesur bir taahhüttür. En korunmasız durumda olanların hedeflenmesi, temel kaynaklar ve hizmetlere erişimin artırılması ve çatışmalar ile iklim temelli afetlerden etkilenen toplumların desteklenmesini içerir.

ANA SAYFA (/) > BM SÜRDÜRÜLEBİLİR KALKINMA AMAÇLARI

BM Sürdürülebilir Kalkınma Amaçları

AMAÇ 2: AÇLIĞA SON

Son 20 yılda hızlı ekonomik büyüme ve tarımsal verimlilikteki artış, yetersiz beslenen insanların sayısında yarıdan fazla azalma sağlamıştır. Eskiden kıtlık ve açlık çeken gelişmekte olan ülkelerin çoğu, en korunmasız kitlelerin beslenme ihtiyaçlarını artık karşılayabiliyor. Orta ve Doğu Asya, Latin Amerika ve Karayipler’de, aşırı açlığın ortadan kaldırılmasında büyük ilerleme kaydedilmiştir.

Bunların tümü, ilk Binyıl Kalkınma Hedefleri tarafından konulan hedeflerin gerçekleştirilmesinde büyük başarılarıdır. Ne yazık ki, aşırı açlık ve yetersiz beslenme birçok ülkede kalkınmanın önünde büyük bir engel olarak duruyor. 2014 yılı itibarıyla, genellikle çevrenin bozulması, kuraklık ve biyo-çeşitliliğin kaybının doğrudan sonucu olarak, 795 milyon insanın sürekli biçimde yetersiz beslendiği tahmin ediliyor. Beş yaşın altında 90 milyonu aşkın çocuk ise gerekli vücut ağırlığının tehlikeli düzeyde altındadır. Öte yandan, Afrika’da her dört insandan biri açtır.

Sürdürülebilir Kalkınma Amaçları, 2030 yılına kadar açlık ve yetersiz beslenmenin her biçimini sona erdirmeyi, başta çocuklar olmak üzere tüm insanların yıl boyunca yeterli besine sahip olmasını hedefliyor. Amaçlar, küçük çiftçilerin desteklenmesi ve arazi, teknoloji ve piyasalara eşit erişimlerini destekleyen sürdürülebilir tarım uygulamalarının teşvik edilmesini kapsıyor. Aynı zamanda, tarımda verimliliği artırmak için altyapı ve teknolojiye yatırım yapılması alanında uluslararası işbirliğini gerektiriyor. Sürdürülebilir Kalkınma Amaçları kapsamında konulan diğer hedeflerle birlikte, 2030 yılına kadar açlığı ortadan kaldırabiliriz.

ANA SAYFA (/) > BM SÜRDÜRÜLEBİLİR KALKINMA AMAÇLARI

BM Sürdürülebilir Kalkınma Amaçları

AMAÇ 2: AÇLIĞA SON

Son 20 yılda hızlı ekonomik büyüme ve tarımsal verimlilikteki artış, yetersiz beslenen insanların sayısında yarıdan fazla azalma sağlamıştır. Eskiden kıtlık ve açlık çeken gelişmekte olan ülkelerin çoğu, en korunmasız kitlelerin beslenme ihtiyaçlarını artık karşılayabiliyor. Orta ve Doğu Asya, Latin Amerika ve Karayipler’de, aşırı açlığın ortadan kaldırılmasında büyük ilerleme kaydedilmiştir.

Bunların tümü, ilk Binyıl Kalkınma Hedefleri tarafından konulan hedeflerin gerçekleştirilmesinde büyük başarılarıdır. Ne yazık ki, aşırı açlık ve yetersiz beslenme birçok ülkede kalkınmanın önünde büyük bir engel olarak duruyor. 2014 yılı itibarıyla, genellikle çevrenin bozulması, kuraklık ve biyo-çeşitliliğin kaybının doğrudan sonucu olarak, 795 milyon insanın sürekli biçimde yetersiz beslendiği tahmin ediliyor. Beş yaşın altında 90 milyonu aşkın çocuk ise gerekli vücut ağırlığının tehlikeli düzeyde altındadır. Öte yandan, Afrika’da her dört insandan biri açtır.

Sürdürülebilir Kalkınma Amaçları, 2030 yılına kadar açlık ve yetersiz beslenmenin her biçimini sona erdirmeyi, başta çocuklar olmak üzere tüm insanların yıl boyunca yeterli besine sahip olmasını hedefliyor. Amaçlar, küçük çiftçilerin desteklenmesi ve arazi, teknoloji ve piyasalara eşit erişimlerini destekleyen sürdürülebilir tarım uygulamalarının teşvik edilmesini kapsıyor. Aynı zamanda, tarımda verimliliği artırmak için altyapı ve teknolojiye yatırım yapılması alanında uluslararası işbirliğini gerektiriyor. Sürdürülebilir Kalkınma Amaçları kapsamında konulan diğer hedeflerle birlikte, 2030 yılına kadar açlığı ortadan kaldırabiliriz.

BM Sürdürülebilir Kalkınma Amaçları

AMAÇ 3: SAĞLIKLI BİREYLER

Çocuk ölüm oranlarının azaltılması, anne sağlığının iyileştirilmesi, HIV/AIDS, sıtma ve diğer hastalıklar ile mücadelede büyük aşama kaydetmiş durumdayız. 1990 yılından bu yana, önlenebilir çocuk ölümlerinde dünya genelinde %50'yi aşan azalma olmuştur. Anne ölümleri de dünya genelinde %45 azalmıştır. 2000 ile 2013 arasında HIV/AIDS bulaşma oranı %30 azalmış, 6,2 milyonu aşkın insan sıtmadan kurtarılmıştır.

Bu inanılmaz ilerlemeye rağmen, her yıl 6 milyondan fazla çocuk, beşinci yaş günlerini göremeden ölüyor. Her gün 16 bin çocuk ise, kızamık ve verem gibi önlenebilir hastalıklardan ölüyor. Her gün yüzlerce kadın, hamilelik veya doğumla bağlantılı komplikasyonlar nedeniyle yaşamını yitiriyor. Kırsal kesimlerde, doğumların yalnız %56'sına vasıflı profesyoneller hizmet veriyor. AIDS günümüzde, halen ağır HIV salgını pençesinde kıvranan Sahraaltı Afrika'da ergen yaştakilerin bir numaralı ölüm nedenidir.

Bu ölümler; önleme ve tedavi, eğitim, aşı kampanyaları, cinsel ve üreme sağlığı hizmetleri vasıtasıyla önlenebilir. Sürdürülebilir Kalkınma Amaçları; AIDS, verem, sıtma ve diğer bulaşıcı hastalık salgınlarını 2030 yılına kadar ortadan kaldırmaya yönelik cesur bir taahhüttür. Amaç, herkesin genel sağlık hizmeti, güvenli ve erişilebilir ilaç ve aşıya kavuşmasını sağlamaktır. Aşı araştırma ve geliştirmelerinin desteklenmesi, bu sürecin vazgeçilmez bir parçasıdır.

BM Sürdürülebilir Kalkınma Amaçları

AMAÇ 3: SAĞLIKLI BİREYLER

Çocuk ölüm oranlarının azaltılması, anne sağlığının iyileştirilmesi, HIV/AIDS, sıtma ve diğer hastalıklar ile mücadelede büyük aşama kaydetmiş durumdayız. 1990 yılından bu yana, önlenbilir çocuk ölümlerinde dünya genelinde %50'yi aşan azalma olmuştur. Anne ölümleri de dünya genelinde %45 azalmıştır. 2000 ile 2013 arasında HIV/AIDS bulaşma oranı %30 azalmış, 6,2 milyonu aşkın insan sıtmadan kurtarılmıştır.

Bu inanılmaz ilerlemeye rağmen, her yıl 6 milyondan fazla çocuk, beşinci yaş günlerini göremeden ölüyor. Her gün 16 bin çocuk ise, kızamık ve verem gibi önlenbilir hastalıklardan ölüyor. Her gün yüzlerce kadın, hamilelik veya doğumla bağlantılı komplikasyonlar nedeniyle yaşamını yitiriyor. Kırsal kesimlerde, doğumların yalnız %56'sına vasıflı profesyoneller hizmet veriyor. AIDS günümüzde, halen ağır HIV salgını pençesinde kıvranan Sahraaltı Afrika'da ergen yaştakilerin bir numaralı ölüm nedenidir.

Bu ölümler; önleme ve tedavi, eğitim, aşı kampanyaları, cinsel ve üreme sağlığı hizmetleri vasıtasıyla önlenbilir. Sürdürülebilir Kalkınma Amaçları; AIDS, verem, sıtma ve diğer bulaşıcı hastalık salgınlarını 2030 yılına kadar ortadan kaldırmaya yönelik cesur bir taahhüttür. Amaç, herkesin genel sağlık hizmeti, güvenli ve erişilebilir ilaç ve aşıya kavuşmasını sağlamaktır. Aşı araştırma ve geliştirmelerinin desteklenmesi, bu sürecin vazgeçilmez bir parçasıdır.

BM Sürdürülebilir Kalkınma Amaçları

AMAÇ 3: SAĞLIKLI BİREYLER

Çocuk ölüm oranlarının azaltılması, anne sağlığının iyileştirilmesi, HIV/AIDS, sıtma ve diğer hastalıklar ile mücadelede büyük aşama kaydetmiş durumdayız. 1990 yılından bu yana, önlenebilir çocuk ölümlerinde dünya genelinde %50'yi aşan azalma olmuştur. Anne ölümleri de dünya genelinde %45 azalmıştır. 2000 ile 2013 arasında HIV/AIDS bulaşma oranı %30 azalmış, 6,2 milyonu aşkın insan sıtmadan kurtarılmıştır.

Bu inanılmaz ilerlemeye rağmen, her yıl 6 milyondan fazla çocuk, beşinci yaş günlerini göremeden ölüyor. Her gün 16 bin çocuk ise, kızamık ve verem gibi önlenebilir hastalıklardan ölüyor. Her gün yüzlerce kadın, hamilelik veya doğumla bağlantılı komplikasyonlar nedeniyle yaşamını yitiriyor. Kırsal kesimlerde, doğumların yalnız %56'sına vasıflı profesyoneller hizmet veriyor. AIDS günümüzde, halen ağır HIV salgını pençesinde kıvranan Sahraaltı Afrika'da ergen yaştakilerin bir numaralı ölüm nedenidir.

Bu ölümler; önleme ve tedavi, eğitim, aşı kampanyaları, cinsel ve üreme sağlığı hizmetleri vasıtasıyla önlenebilir. Sürdürülebilir Kalkınma Amaçları; AIDS, verem, sıtma ve diğer bulaşıcı hastalık salgınlarını 2030 yılına kadar ortadan kaldırmaya yönelik cesur bir taahhüttür. Amaç, herkesin genel sağlık hizmeti, güvenli ve erişilebilir ilaç ve aşıya kavuşmasını sağlamaktır. Aşı araştırma ve geliştirmelerinin desteklenmesi, bu sürecin vazgeçilmez bir parçasıdır.

ANA SAYFA (/) > BM SÜRDÜRÜLEBİLİR KALKINMA AMAÇLARI

BM Sürdürülebilir Kalkınma Amaçları

AMAÇ 3: SAĞLIKLI BİREYLER

Çocuk ölüm oranlarının azaltılması, anne sağlığının iyileştirilmesi, HIV/AIDS, sıtma ve diğer hastalıklar ile mücadelede büyük aşama kaydetmiş durumdayız. 1990 yılından bu yana, önlenebilir çocuk ölümlerinde dünya genelinde %50'yi aşan azalma olmuştur. Anne ölümleri de dünya genelinde %45 azalmıştır. 2000 ile 2013 arasında HIV/AIDS bulaşma oranı %30 azalmış, 6,2 milyonu aşkın insan sıtmadan kurtarılmıştır.

Bu inanılmaz ilerlemeye rağmen, her yıl 6 milyondan fazla çocuk, beşinci yaş günlerini göremeden ölüyor. Her gün 16 bin çocuk ise, kızamık ve verem gibi önlenebilir hastalıklardan ölüyor. Her gün yüzlerce kadın, hamilelik veya doğumla bağlantılı komplikasyonlar nedeniyle yaşamını yitiriyor. Kırsal kesimlerde, doğumların yalnız %56'sına vasıflı profesyoneller hizmet veriyor. AIDS günümüzde, halen ağır HIV salgını pençesinde kıvranan Sahraaltı Afrika'da ergen yaştakilerin bir numaralı ölüm nedenidir.

Bu ölümler; önleme ve tedavi, eğitim, aşı kampanyaları, cinsel ve üreme sağlığı hizmetleri vasıtasıyla önlenebilir. Sürdürülebilir Kalkınma Amaçları; AIDS, verem, sıtma ve diğer bulaşıcı hastalık salgınlarını 2030 yılına kadar ortadan kaldırmaya yönelik cesur bir taahhüttür. Amaç, herkesin genel sağlık hizmeti, güvenli ve erişilebilir ilaç ve aşıya kavuşmasını sağlamaktır. Aşı araştırma ve geliştirmelerinin desteklenmesi, bu sürecin vazgeçilmez bir parçasıdır.

ANA SAYFA (/) > BM SÜRDÜRÜLEBİLİR KALKINMA AMAÇLARI

BM Sürdürülebilir Kalkınma Amaçları

AMAÇ 3: SAĞLIKLI BİREYLER

Çocuk ölüm oranlarının azaltılması, anne sağlığının iyileştirilmesi, HIV/AIDS, sıtma ve diğer hastalıklar ile mücadelede büyük aşama kaydetmiş durumdayız. 1990 yılından bu yana, önlenemez çocuk ölümlerinde dünya genelinde %50'yi aşan azalma olmuştur. Anne ölümleri de dünya genelinde %45 azalmıştır. 2000 ile 2013 arasında HIV/AIDS bulaşma oranı %30 azalmış, 6,2 milyonu aşkın insan sıtmadan kurtarılmıştır.

Bu inanılmaz ilerlemeye rağmen, her yıl 6 milyondan fazla çocuk, beşinci yaş günlerini göremeden ölüyor. Her gün 16 bin çocuk ise, kızamık ve verem gibi önlenemez hastalıklardan ölüyor. Her gün yüzlerce kadın, hamilelik veya doğumla bağlantılı komplikasyonlar nedeniyle yaşamını yitiriyor. Kırsal kesimlerde, doğumların yalnız %56'sına vasıflı profesyoneller hizmet veriyor. AIDS günümüzde, halen ağır HIV salgını pençesinde kıvranan Sahraaltı Afrika'da ergen yaştakilerin bir numaralı ölüm nedenidir.

Bu ölümler; önleme ve tedavi, eğitim, aşı kampanyaları, cinsel ve üreme sağlığı hizmetleri vasıtasıyla önlenemez. Sürdürülebilir Kalkınma Amaçları; AIDS, verem, sıtma ve diğer bulaşıcı hastalık salgınlarını 2030 yılına kadar ortadan kaldırmaya yönelik cesur bir taahhüttür. Amaç, herkesin genel sağlık hizmeti, güvenli ve erişilebilir ilaç ve aşıya kavuşmasını sağlamaktır. Aşı araştırma ve geliştirmelerinin desteklenmesi, bu sürecin vazgeçilmez bir parçasıdır.

ANA SAYFA (/) > BM SÜRDÜRÜLEBİLİR KALKINMA AMAÇLARI

BM Sürdürülebilir Kalkınma Amaçları

AMAÇ 3: SAĞLIKLI BİREYLER

Çocuk ölüm oranlarının azaltılması, anne sağlığının iyileştirilmesi, HIV/AIDS, sıtma ve diğer hastalıklar ile mücadelede büyük aşama kaydetmiş durumdayız. 1990 yılından bu yana, önlenebilir çocuk ölümlerinde dünya genelinde %50'yi aşan azalma olmuştur. Anne ölümleri de dünya genelinde %45 azalmıştır. 2000 ile 2013 arasında HIV/AIDS bulaşma oranı %30 azalmış, 6,2 milyonu aşkın insan sıtmadan kurtarılmıştır.

Bu inanılmaz ilerlemeye rağmen, her yıl 6 milyondan fazla çocuk, beşinci yaş günlerini göremeden ölüyor. Her gün 16 bin çocuk ise, kızamık ve verem gibi önlenebilir hastalıklardan ölüyor. Her gün yüzlerce kadın, hamilelik veya doğumla bağlantılı komplikasyonlar nedeniyle yaşamını yitiriyor. Kırsal kesimlerde, doğumların yalnız %56'sına vasıflı profesyoneller hizmet veriyor. AIDS günümüzde, halen ağır HIV salgını pençesinde kıvranan Sahraaltı Afrika'da ergen yaştakilerin bir numaralı ölüm nedenidir.

Bu ölümler; önleme ve tedavi, eğitim, aşı kampanyaları, cinsel ve üreme sağlığı hizmetleri vasıtasıyla önlenebilir. Sürdürülebilir Kalkınma Amaçları; AIDS, verem, sıtma ve diğer bulaşıcı hastalık salgınlarını 2030 yılına kadar ortadan kaldırmaya yönelik cesur bir taahhüttür. Amaç, herkesin genel sağlık hizmeti, güvenli ve erişilebilir ilaç ve aşıya kavuşmasını sağlamaktır. Aşı araştırma ve geliştirmelerinin desteklenmesi, bu sürecin vazgeçilmez bir parçasıdır.

BM Sürdürülebilir Kalkınma Amaçları

AMAÇ 3: SAĞLIKLI BİREYLER

Çocuk ölüm oranlarının azaltılması, anne sağlığının iyileştirilmesi, HIV/AIDS, sıtma ve diğer hastalıklar ile mücadelede büyük aşama kaydetmiş durumdayız. 1990 yılından bu yana, önlenbilir çocuk ölümlerinde dünya genelinde %50'yi aşan azalma olmuştur. Anne ölümleri de dünya genelinde %45 azalmıştır. 2000 ile 2013 arasında HIV/AIDS bulaşma oranı %30 azalmış, 6,2 milyonu aşkın insan sıtmadan kurtarılmıştır.

Bu inanılmaz ilerlemeye rağmen, her yıl 6 milyondan fazla çocuk, beşinci yaş günlerini göremeden ölüyor. Her gün 16 bin çocuk ise, kızamık ve verem gibi önlenbilir hastalıklardan ölüyor. Her gün yüzlerce kadın, hamilelik veya doğumla bağlantılı komplikasyonlar nedeniyle yaşamını yitiriyor. Kırsal kesimlerde, doğumların yalnız %56'sına vasıflı profesyoneller hizmet veriyor. AIDS günümüzde, halen ağır HIV salgını pençesinde kıvranan Sahraaltı Afrika'da ergen yaştakilerin bir numaralı ölüm nedenidir.

Bu ölümler; önleme ve tedavi, eğitim, aşı kampanyaları, cinsel ve üreme sağlığı hizmetleri vasıtasıyla önlenbilir. Sürdürülebilir Kalkınma Amaçları; AIDS, verem, sıtma ve diğer bulaşıcı hastalık salgınlarını 2030 yılına kadar ortadan kaldırmaya yönelik cesur bir taahhüttür. Amaç, herkesin genel sağlık hizmeti, güvenli ve erişilebilir ilaç ve aşıya kavuşmasını sağlamaktır. Aşı araştırma ve geliştirmelerinin desteklenmesi, bu sürecin vazgeçilmez bir parçasıdır.

ANA SAYFA (/) > BM SÜRDÜRÜLEBİLİR KALKINMA AMAÇLARI

BM Sürdürülebilir Kalkınma Amaçları

AMAÇ 4: NİTELİKLİ EĞİTİM

2000 yılından bu yana, herkes için ilköğretim hedefinin başarılması yönünde büyük ilerleme kaydedilmiştir. Kalkınmakta olan bölgelerde toplam okullaşma oranı 2015 yılında %95'e ulaşmış; dünya genelinde de okula gitmeyen çocuk oranı yarı yarıya azalmıştır. Ayrıca, okuryazarlık oranlarında da büyük artış olmuş; okula giden kız çocuklarının sayısı en yüksek düzeye çıkmıştır. Bunların tümü çok önemli başarılarıdır.

Gelişmekte olan bazı bölgelerde ise, ağır yoksulluk, silahlı çatışmalar ve diğer acil krizler nedeniyle, ilerleme kaydetmek oldukça zor olmuştur. Batı ve Kuzey Afrika'da silahlı çatışmaların devam etmesi, okula giden çocuk sayısında azalmaya yol açmıştır. Bu kaygı verici bir trenddir. Okullaşma oranları bakımından, Sahraaltı Afrika 1990'da %52 düzeyinden 2012'de %78 düzeyine çıkarak, tüm gelişmekte olan bölgeler arasında en yüksek ilerlemeyi kaydetmiş olmakla birlikte, hala büyük eşitsizlikler vardır. En yoksul ailelerin çocuklarının okulu bırakma olasılığı, en varlıklı olanların çocuklarına göre dört misli daha yüksektir. Kırsal ve kentsel kesimler arasındaki eşitsizlikler de yüksek olmaya devam ediyor.

Herkes için kapsayıcı ve nitelikli eğitimin başarılması, eğitimin sürdürülebilir kalkınma için en güçlü ve denenmiş araçlardan biri olduğuna dair inancı yeniden vurguluyor. Bu hedef, 2030 yılına kadar tüm kız ve erkek çocuklarının ücretsiz ilköğretim ve ortaöğretimi tamamlamasını sağlayacaktır. Ayrıca, uygun maliyetli mesleki eğitime eşit erişim sağlamayı, cinsiyet ve varlık eşitsizliklerini ortadan kaldırmayı, nitelikli yükseköğretime herkesin erişmesini sağlamayı da hedefliyor.

ANA SAYFA (/) > BM SÜRDÜRÜLEBİLİR KALKINMA AMAÇLARI

BM Sürdürülebilir Kalkınma Amaçları

AMAÇ 4: NİTELİKLİ EĞİTİM

2000 yılından bu yana, herkes için ilköğretim hedefinin başarılması yönünde büyük ilerleme kaydedilmiştir. Kalkınmakta olan bölgelerde toplam okullaşma oranı 2015 yılında %95'e ulaşmış; dünya genelinde de okula gitmeyen çocuk oranı yarı yarıya azalmıştır. Ayrıca, okuryazarlık oranlarında da büyük artış olmuş; okula giden kız çocuklarının sayısı en yüksek düzeye çıkmıştır. Bunların tümü çok önemli başarılarıdır.

Gelişmekte olan bazı bölgelerde ise, ağır yoksulluk, silahlı çatışmalar ve diğer acil krizler nedeniyle, ilerleme kaydetmek oldukça zor olmuştur. Batı ve Kuzey Afrika'da silahlı çatışmaların devam etmesi, okula giden çocuk sayısında azalmaya yol açmıştır. Bu kaygı verici bir trenddir. Okullaşma oranları bakımından, Sahraaltı Afrika 1990'da %52 düzeyinden 2012'de %78 düzeyine çıkarak, tüm gelişmekte olan bölgeler arasında en yüksek ilerlemeyi kaydetmiş olmakla birlikte, hala büyük eşitsizlikler vardır. En yoksul ailelerin çocuklarının okulu bırakma olasılığı, en varlıklı olanların çocuklarına göre dört misli daha yüksektir. Kırsal ve kentsel kesimler arasındaki eşitsizlikler de yüksek olmaya devam ediyor.

Herkes için kapsayıcı ve nitelikli eğitimin başarılması, eğitimin sürdürülebilir kalkınma için en güçlü ve denenmiş araçlardan biri olduğuna dair inancı yeniden vurguluyor. Bu hedef, 2030 yılına kadar tüm kız ve erkek çocuklarının ücretsiz ilköğretim ve ortaöğretimi tamamlamasını sağlayacaktır. Ayrıca, uygun maliyetli mesleki eğitime eşit erişim sağlamayı, cinsiyet ve varlık eşitsizliklerini ortadan kaldırmayı, nitelikli yükseköğretime herkesin erişmesini sağlamayı da hedefliyor.
